Optimal Health

Patient Benefits:

Active Detox+, provided as a powdered beverage mix, is a medical food for impaired or compromised detoxification capacity, which may be associated with health conditions such as:

Atopic disorders
Chemical sensitivity
Chronic fatigue syndrome
Fibromyalgia
Food allergy
Generalized arthralgias

- ✓ Provides vitamins, minerals, and accessory nutrients to support **both Phase I and Phase II detoxification**, but with added support for those who are "**imbalanced detoxifiers**"—people with low Phase II activities.
- ✓ Imbalanced detoxification may be due to **genetic predisposition**, a history of **chronic nutrient insufficiency**, and/or **toxin overload**, which can result in a buildup of reactive oxygen intermediates and a subsequent increase in symptoms and/or tissue damage.
- ✓ Supplies **low-allergy-potential rice protein concentrate** with added limiting essential amino acids **L-lysine** and **L-threonine** to increase the biological value of the protein.
- ✓ Rich in the antioxidant **vitamins A, C, E, and beta-carotene**, which may help protect against oxygen free radicals generated during the detoxification process.
- ✓ Provides **high-molecular-weight rice dextrins** as the carbohydrate source and **medium-chain triglycerides** as a source of readily absorbed and metabolized lipids
- ✓ Features added **glycine, taurine, sodium sulfate, and catechins** from decaffeinated green tea to better support Phase II activities.
- ✓ Safe for **long term use** in individuals with chronic exposure to toxins.
- ✓ Available in delicious Original, Natural **Pineapple Banana flavor**.
- ✓ Comes with a comprehensive **Patient Guide** for complete program guidelines.
