

Antarcti-Krill™

**Fast Soluble Natural Source
Of Antioxidant**

**ORAC[◇] Values of Antarcti-Krill™
Vs. Other Fat Soluble Dietary
Supplements**

Antarcti-Krill™	378	ORAC/g
Lycopene	58	ORAC/g
Astaxanthin	51	ORAC/g
CO-Q-10	11	ORAC/g
Lutein	8	ORAC/g
Lutein	8	ORAC/g
Vitamin E	1.25	ORAC/g
Vitamin A	1.25	ORAC/g

Researchers at Tufts University USDA Human Research Center on Aging report that a single fresh fruit & vegetables provides an average of 300-400 ORAC units.

◇ Oxygen Radical Capacity measure the level of antioxidant protection

Supplement Facts:

Serving Size 1 Softgel
Serving Per Container 60

	Amount Per Serving	% Daily Value
Vitamin A (All-Trans Retinol, From Krill Oil)	50 IU	1%
Omega-3 Fatty Acids	150 mg	+
EPA	75 mg	+
DHA	45 mg	+
Omega-6 Fatty Acids (Linoleic)	10 mg	+
Omega-9 Fatty Acids (Oleic)	42.5 mg	+
Phospholipids	200 mg	+
Astaxanthin	0.75 mg	+
Choline	36.5 mg	+

+ Daily Value (DV) Not Established

Other ingredients: Gelatin (softgel), Glycerin

Suggestion Dose: 1-2 softgels daily.

Warning: *People with seafood allergy, bleeding disorders, taking anticoagulants, blood thinners, other medications, or if planning or have had recent surgery, should seek the advice of a physician prior to taking this dietary supplement.*

Dr. Ferre's Optimal Health

Brian Nutrition

The human brain has the highest density of phospholipid-rich membrane in the body. The high DHA content in Krill oil phospholipids make it a superior choice to support healthy brain phospholipid and Omega-3 fatty acid balance. Krill oil naturally contains additional beneficial nutrients, including Vitamin E, Vitamin A, and Beta Carotene & Astaxanthin.

Highly Stable

Compared to other unsaturated fatty acids, Krill Oil is remarkably stable. To maintain integrity, essential fatty acids must be stored under refrigeration, in dark containers. By contrast, Krill oil retains its stability under high temperatures (97.8C) close the boiling point of water, for over 48 hours! ...this gives you assurance that it is clean & not rancid.

Sustainable

Antarcti-Krill™ is low temperature extracted and Softgel encapsulated Krill oil harvested from the icy cold pristine waters of Antarctic Ocean. **Antarcti-Krill™** is sustainably harvested under International treaties that protect the environment by regulating fishing practices.

Antarcti-Krill™ stands alone as of the highest ORAC[◇] value, fat-soluble natural-source antioxidants available worldwide. Fish oils are valuable for their Omega-3 essential fatty acids, but Federal and worldwide authorities are warning

against consumption of fish because of marine contamination at this level in food chain. By contrast, Krill are among the smallest marine crustacean and are at one of the lowest levels in food chain. Dioxins and other toxins are commonly found in fish. Purity and **Antarcti-Krill™** are superior sources of natural phospholipid-containing Omega-3 & Omega-6 fatty acids making **Antarcti-Krill™** a superior antioxidant.

EPA-DHA

Antarcti-Krill™ contains 3 EPA & DHA-rich phospholipids, which are natural emulsifiers that support the digestion & absorption of dietary fat-soluble nutrients. Krill oil is a great source of phosphatidylcholine, more commonly derived from soy. Because Krill oil is a significant source of dietary choline, it is a viable alternative to soy-derived phosphatidylcholine. This is great news for people on soy-restricted diets.

Double-Blind Studies

Double-Blind, placebo controlled studies have compared **Antarcti-Krill™** oil to fish oil results in these categories:

- ✓ **Lipid Management- supports healthy lipid balance**
- ✓ **Brain Nutrition- supports healthy brain function**
- ✓ **Menstrual Cycle- supports menstrual cycle comfort**
