

Diabetic Care *Plus*

Diabetic Nutritional Support*

Patient Benefits:

Diabetic Care *Plus*, a natural product obtained from the over-ground part of the plant Tribulus Terrestris containing mainly steroid saponins with predominant of protodioscin concentration per tablet of 250 mg and Bio active chromium from Chromium Polypeptide is containing 200 mcg Chromium per tablet.

Chromium is a mineral the body needs in very small amounts, but it plays a significant role in human nutrition. Chromium's most important function in the body is to help regulate the amount of glucose (sugar) in the blood. Insulin plays a starring role in this fundamental biological process, by regulating the movement of glucose out of the blood and into cells. Scientists believe that insulin uses chromium as an assistant (technically, a cofactor) to "unlock the door" to the cell membrane, thus allowing glucose to enter the cell.

Supplement Facts:

Serving Size: 1 Tablet

Servings Per Container: 90

	Amount Per Serving	%Daily Value
Chromium (as Chromium Polypeptide)	200 mcg	+
Tribulus Terrestris (Aerial Part)	250 mg	+

+ Daily Value (DV) Not Established

Other Ingredients: Microcrystalline cellulose, Stearic acid, Magnesium stearate, Silicon dioxide, Hydroxypropyl cellulose, and Croscarmellose sodium.

Suggested Dose: As a dietary supplement, take one to four tablets daily.
